

# *A European Journey of Art and Flowers*

**Springtime is a beautiful time to visit Europe. The spring flowers are in bloom, the crowds haven't started to arrive just yet and the weather is fresh and clean.**

**Hermes Travel and Tours has an enchanting springtime tour next year.**

Our journey begins in Holland (The Netherlands), the land of tulips and Van Gogh. Our plane departs from LAX and arrives in the very exciting city of Amsterdam. We tour the important sights of Amsterdam, such as The Van Gogh Museum and Ann Franks House. You will

have time to explore on your own along with a guided city tour and canal boat ride. There is more to the Netherlands than Amsterdam; so, we're off to explore other regions in the low country. We will go to the flower market in Aalsmeer and visit the breathtaking Keukenhof Gardens - more flowers than you can imagine. We pass time in the old city of Delft and visit a very impressive art Museum in the Hague.

Now on to the hearty countryside of Belgium; I say hearty because along with the beautiful scenery of Antwerp, the fairytale city of Bruges and the Europe's most impressive town square in Brussels you will have the opportunity to try some of the best food on the continent. They say that the Belgians teach the French how to cook; you'll have to find out for yourself.

Not many people have ventured into the tiny Grand Duchy of Luxembourg; you won't be disappointed. The capital city of Luxembourg sits high on a bluff with incredible views of the two rivers below and the trees and flowers are in full bloom. You can walk the entire city in one day but there is a lot to see.

No springtime trip to Europe would be complete without a visit to France. First we pass through the Champagne region with a stay in Reims and then on to the City of Lights, Paris. Paris in the springtime - isn't there a song about that?

I have only given you a small taste of what is actually listed in this itinerary. This twelve day visit to four of the most beautiful countries in Europe during the best season to see them is only **\$3330.** +Tax.

**There is more to this trip than one can put into writing. You will find the complete itinerary at our website at [www.HermesToursOnline.com](http://www.HermesToursOnline.com)**
